Profile Summary

A **Backend Developer** skilled in building **Web Applications** and **REST APIs** using **Django** and **Django REST framework**. Capable of collaborating with *frontend* teams and handling *databases* like **MySQL** and **PostgreSQL**. Dedicated to delivering reliable and scalable *backend systems* that support innovative projects and solve complex challenges, while adapting to the evolving needs of the business.

Educational Qualifications

SRM Institute of Science and Technology (SRMIST)

Master of Computer Applications (MCA)

Chennai, Tamil Nadu

September 2024 - Ongoing

Guru Nanak College of Science (Gondwana University)

Bachelor of Computer Science (BSc CS)

Ballarpur, Maharashtra

September 2020 - August 2023

Jawahar Navodaya Vidyalaya (JNV)

Schooling (CBSE Board)

Chandrapur, Maharashtra

July 2013 - April 2020

Internship Experience

Python Django - Backend Developer Intern

Callisto IT Solutions

December 2023 – August 2024

Nagpur, Maharashtra

- Developed a robust and scalable **Polling application** using *Python* and *Django framework*, adhering to best coding practices. Implemented features such as *various categories of poll creation*, *vote casting*, *result visualization*, *user registration*, and **authentication by verifying OTP** via email or **signing in through a Google account**.
- Created an **admin panel** and developed functionalities for data visualization on the *dashboard*, **password changing**, *user management* and *poll management*, providing an intuitive interface for administrators.
- Authored a comprehensive **user guide** for system architecture to facilitate smoother handovers and application testing. Collaborated with the frontend team to integrate user-facing components with *server-side logic*.

Personal Projects

E-Commerce API | [API Documentation](#) | [GitHub Repository](#) | [API Key](#)

- Developed a **REST API** using *Django REST framework*, with features such as product **search**, category **filtering**, and order management; also integrated **Stripe** for secure payment processing.
- Utilized **PostgreSQL** database on **AWS RDS**, leveraged **AWS S3** for secure product image storage, and implemented **JWT authentication** to ensure secure user access.

Social Media Backend | [API Documentation](#) | [GitHub Repository](#) | [API Key](#)

- Built a robust *social media API* using *Django REST framework*, enabling user profile creation, post management, and interaction functionalities such as **likes**, **comments**, and **follow/unfollow** actions.
- Integrated **JWT authentication** for secure user access, utilized **MySQL** for data storage, and ensured scalability and reliability through efficient backend architecture.

Skills and Strengths

- Backend Development:** *Python, Django, Django REST Framework*
- Frontend Development:** *HTML, CSS, Bootstrap, JavaScript (Basic)*
- Database Proficiency:** *SQLite, MySQL, PostgreSQL*
- Tools and Technologies:** *Git, GitHub, VS Code, Postman*
- Soft Skills:** *Leadership, Self-learning, Decision-making*

Professional Certifications

- Django Web Framework - Meta (Coursera)** | **Programming in Python - Meta (Coursera)**
- TCS ION Career Edge - Young Professional**
